Diverter Adapters and Landing Rings

Delivering Superior Service. Wellhead experts since 1930

Realize increased reliability and productive time on the pad with our diverter adapters and landing rings.

TechnipFMC Diverter Landing Rings allow the operator to land and cement the surface casing through the diverter and eliminate the need to wait on cement prior to removing the diverter. Available in a variety of pressure ratings, the Diverter Adapter is made up into the riser system and interfaces with the Diverter Landing Ring to contain fluids during drilling operations.

Speed

- ▶ Land / Cement surface casing through diverter
- ▶ Eliminate waiting on cement
- ▶ Makes up in minutes

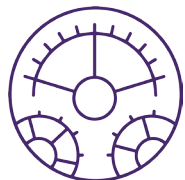

Operational Performance

- ▶ Field proven performance
- ▶ Detailed installation procedures
- ▶ Experienced service personnel

Versatility

- ▶ Wellhead housing suspended in landing ring
- ▶ Outlets available on Landing Ring or Diverter Adapter
- ▶ Configured in sections when clearance is an issue

Applications

- ▶ Available for common conductor sizes: 14"-36"
- ▶ Accommodates air and mud drilling applications
- ▶ Low Pressure, Medium Pressure, and High Pressure

Safety

- ▶ Eliminates work below suspended loads
- ▶ Eliminates hot work
